

MySQL Case Study Datasets

SQL | MySQL Workbench | Data Analysis (Aug 2024 – Sep 2024)

- Built a repository of SQL datasets covering Shark Tank, Data Science Jobs, Google Play Store, and Swiggy.
- Created relational databases with multiple tables for realistic querying.
- Executed SQL queries (e.g., JOINS, aggregations) for insights on jobs, apps, and orders.
- Performed data analysis on job trends, app reviews, and investments.
